CARTUCCIA A DISCHI CERAMICI

La cartuccia a dischi ceramici, progettata secondo le norme NF-Francesi e DIN-Tedesche, consente di ottenere elevate portate d'acqua ed una sorprendente silenziosità della rubinetteria stessa. Dischi ceramici curati nella finitura superficiale e lubrificati con grassi particolari garantiscono una perfetta morbidezza di funzionamento.

CERAMIC DISKS CARTRIDGE

Ceramic disks cartridge, planned following French NF and German DIN standards, enables to obtain high flow rates and a surprising noiseless of the fittings. Ceramic disks are controlled on surface finishings and lubricated with special greases, and they guarantee a perfect and smooth functioning.

CARTOUCHE À DISQUES CERAMIQUES

La cartouche à disques céramiques, fabriquée selon les normes NF-Françaises et DIN-Allemandes, obtient des débits très élevés tout en étant étonnamment silencieuse. Ces disques céramiques dont le polissage est très soigné, sont lubrifiés au montage avec des graisses particulières, garantissant une parfaite souplesse de fonctionnement.

KARTUSCHE MIT KERAMISCHEN SCEIBEN

Die Kartusche mit keramischen Scheiben erfüllt mühelos die strenge deutsche, sowie die französische Norm. Sie zeichnet sich durch eine hohe Durchflußmenge, sowie einen geringen Geräuschpegel aus. Die keramischen Scheiben werden auf die geforderte Oberfläche hin werksseitig kontrolliert und mit einer speziellen Fettschicht versehen. Dies garantiert die Leichtgängigkeit der Kartusche.
